

McAfee Active Response 2.2 Essentials

McAfee® Education Services eLearning Course

The McAfee® Active Response 2.2 Essentials course is a self-paced eLearning course that provides foundation level information on the full product or solution. It includes product overview, installation, user interface, key feature configuration, reporting, and troubleshooting. Essentials courses are designed for individuals that need to fully learn the product.

Audience

System and network administrators, security personnel, auditors, and/or consultants concerned with network and system security should take this course.

Recommended Pre-Work

It is recommended that students have a working knowledge of Microsoft Windows administration, system administration concepts, a basic understanding of computer security concepts, and a general understanding of internet services.
